BEHIND WENDY STAND THOSE WITH A VISION FOR THE SCHOOL

We began our journey way back in 1986, with an endeavour to provide our students, a learning environment which focuses on the holistic development of a child at school.

Holding the ethos and values built more than three decades ago, we believe in staying ahead of the curve and providing our students with a best-in-class learning experience which helps a child to develop their full potential.

At Wendy, we sincerely believe that a child goes through various phases even during their education period to which the final outcome is a collaborative effort of the school, and the parent providing the child with an experience to lean & remember. With a goal providing academic excellence, our focus has been to create, serve, and lead in a nurturing, inclusive of a collaborative environment of learning.

We believe that each child is unique and needs a secure, caring, and stimulating environment to grow and mature emotionally, intellectually, physically, and socially. As an educationist, it is our endeavour to help a child to meet their fullest potential in these areas by providing an environment that is safe, supports risk-taking, and encourages brainstorming of ideas. We are focused on providing our students with a competitive edge once they enter the real world by providing them with opportunities not only academically but also developing their personality in which we will enable them to turn their passion into valuable ideas.
